Hansberger Refrigeration and Electric Company
Mark Hansberger
660 East 18th Place, Suite A
Yuma, Arizona 85364
(928) 783-3331
Member Since 2002

Hansberger Refrigeration & Electric was founded in 1952 by Edwin L. Hansberger Jr. in January 2001 Mark Hansberger bought the business. In addition, Mark also bought Air Temperature of Yuma. Air Temp was a long time Yuma company with a great history of good service. While much has obviously changed in the last 58 years, many things haven't- including a defined set of values that foster a true sense of family, and a commitment to only the best in service and craftsmanship. Then couple that with a desire to build relationships that are based on old fashioned principles like trust and integrity; a true respect for the individual; a want to give back to the community, and you begin to understand why Hansberger is such a special place.

Ingold Family Investments, LLC/Sun River Investments
Rob Ingold
202 South 1st Avenue, Suite 301C

Member Since 1996

Ingold Family Investments' long term commitment to the economic growth of Yuma County is spurred by Yuma's business friendly environment, its affordable building costs and central location and easy access to adjacent trade markets, including Mexico, California, Nevada, Utah, New Mexico, Colorado and Texas. That commitment is exhibited not only in the development and management of first-class commercial and industrial projects, but also in reinvesting in those projects in order to accommodate the future growth of our clients' business operations. Ingold Family Investments' belief in offering superior customer service is founded in their sincere desire to accommodate the needs of their clients, which is exhibited by their ability to build facilities that fit their clients' requirements today, while always being mindful and planning ahead for future growth that includes the possible expansion of a client's original facility. Ingold Family Investments' is a leader in environmental awareness and proud of their ability to build environmentally friendly facilities in the desert southwest.

Member Since 2006

Sellers Petroleum, a 50 year plus petroleum products marketing company, was founded by John D. Sellers and Verna E. Sellers. The company incorporated in 1974 and became Sellers Petroleum Products, Inc. (an Arizona Corporation). During July of 1983 the company expanded its marketing area with the acquisition of J.L. Quall Distributing. In 1995 a second expansion took place with the opening of offices in San Diego County. In 2004 the company changed its name to Snake Bite Leasing, Inc. Snake Bite Leasing continues with petroleum marketing today under the DBA Sellers Petroleum. Since the company's inception it has promoted primarily Union Oil (Unocal) products. In 2003 Sellers Petroleum expanded its product line to include ChevronTexaco products. The operations of Sellers Petroleum encompass fuels, lubricants, coolants, solvents, race gas and many other petroleum related products. The marketing area includes Southern California and Southwestern Arizona. Currently the Board of Directors for Snake Bite Leasing include Reed Sellers, Dave Sellers and John M. Sellers. Marketing locations are maintained in both Arizona and California with complete staffing for the continuing convenience of Sellers Petroleum customers.

Trax Test Services Division is the leading provider of high-quality technical and logistical testing and evaluation capabilities for the Army's Yuma Proving Ground. TRAX Test Services represents more than 1,400 professionals in highly technical disciplines that are dedicated to ensuring the equipment our troops employ is of the highest quality and functionality.

The primary responsibility of Test Services Division is to provide the Army with resources, equipment, and personnel in support of their testing capabilities. We employ a wide range of professions including manual laborers, technicians, engineers, ex-military specialists, administrative assistants, and more. Our people work directly with government employees to keep the tests on schedule and under budget.

Union Pacific Railroad is the largest railroad in the US serving 23 states with 8,700 railroad cars linking major West Coast and Gulf Coast ports with four major gateways (Chicago, St Louis, Memphis, New Orleans). Union Pacific operates key north/south corridors and is the only railroad that serves all major gateways to Mexico and interchanges traffic with Canada. UP's diversified commodity mix includes chemicals, coal, food and forest products, grain and grain products, metals, minerals, and automobiles and parts. UP is the nation's largest hauler of chemicals and is one of the largest carriers of truck trailers and containers.
